

Kistler Ranch

Family owned and operated

Thank you for your purchase of Kistler Santo Domingo Ranch grass-fed beef. A \$250 deposit will transfer ownership of the animal to you. Kistler Santo Domingo Ranch will act as an agent in finishing, harvesting and processing of your beef. All grass-fed beef animals spend their entire life grazing on Kistler Ranch. When the animal reaches its ideal weight for harvesting, a local ranch butcher comes out to the ranch to harvest. The state inspected processing facility is located 10 miles away from Kistler Ranch. The animal is aged for 10-14 days and then processed into your specific variety of cuts. Our process keeps the handling of your beef to the least amount of people possible. If you want to continue with your purchase using this process, *please sign* and send a \$250 deposit to the address below.
